

Submission Guidelines Machine Learning

Solution should be submitted in teams of two. Please submit your solution online using the sciebo file-drop folder. The link is available in ILIAS. Please submit a single zip file with the following naming scheme: `username1-username2-ex#.zip`.

Example. Erika Gabler (ergab103) and Max Mustermann (mamus104) submit their solutions for exercise sheet #1.

OK:

– `ergab103-mamus104-ex01.zip`

Not OK:

- `ergab103-mamus104-exercises01.zip`
- `ergab103_mamus104_ex01-ML.zip`
- `Gabler_Mustermann.zip`
- `mamus104-none-ex01.zip`
- etc.

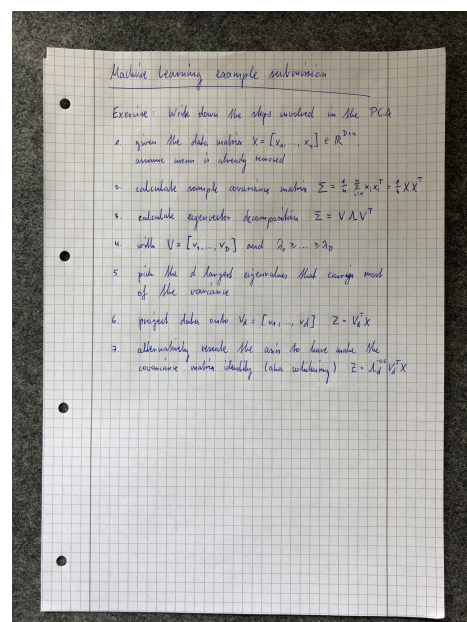

Allowed file extensions (of files within the zip file) are: `.pdf`, `.txt`, `.py` and `.ipynb`. Make sure the total file size does not exceed 10 MB. In the case of multiple uploads we will consider the latest. Uploads after the deadline will be deleted without further notice.

In order to provide your solutions for the theoretical exercises you should submit **scans** of your paperwork, **sketch notes** from tablets or even PDF files using **LaTeX**. We will not accept photos of your solutions. Scans produced by scanner apps are okay (e.g. Dropbox).

Example.
